**A Project Submitted in Partial Fulfillment of the Requirements for the
Degree of Bachelor of Science in Computer Science & Engineering**

July,2016

DECLARATION

We, hereby, declare that the work presented in this Project is the outcome of the investigation performed by me under the supervision of Tarin Kazi, Senior Lecturer, Department of Computer Science & Engineering, Stamford University Bangladesh. We also declare that no part of this Project and thereof has been or is being submitted elsewhere for the award of any degree or Diploma.

ABSTRACT

The purpose of this project entitled as “HOSPITAL MANAGEMENT SYSTEM” is to computerize the Front Office Management of Hospital into software which is user friendly simple, fast, and cost-effective. This project has many features where the main fact is, It deals with the patient’s facilities, diagnosis details, etc. Traditionally, it was done manually. The main function of the system is register and store patient details and doctor details and retrieves these details as and when required, and also to manipulate these details meaningfully System input contains patient details, diagnosis details, while system output is to get these details on to the screen. Admin is the most powerful user of the system. Who can monitor all activities of the hospital through his valid registration system. Another facility of this project is notice board where doctors, nurses, patients and others staff can put up information about workshop, meeting being held in the hospital. Overall this project of ours is being developed to help the patients as well as the staff of the hospital to maintain the hospital in better way and reduce the human efforts.

ACKNOWLEDGEMENTS

First of all we are thankful to Almighty Allah for his blessings for the successful completion of our project. The pleasure that accompanies the flourishing achievement of any task would be shortened without the mention of people whose continual cooperation made it possible, whose constant guidance and encouragement crown all efforts with success.

We would like to express our gratitude to our respected Chairman Dr. Kamruddin Md. Nur. we are grateful to our honorable supervisor Tarin Kazi, Lecturer, Department of Computer Science and Engineering for the guidance, inspiration and constructive suggestions that helped me in the preparation of this project. Although she was always loaded with several other activities, she gave us more than enough time in this work. She not only gave us time but also proper guidance and valuable advice whenever we faced with some difficulties. Her comments and guidance helped us in preparing my project report.

We are also thankful to all of our teachers of the department who helped us in a number of ways by providing various resources and moral support.

Last of all we are grateful to our family; who are, always with us in our every step of life.

TABLE OF CONTENTS

ABSTRACT	iii
ACKNOWLEDGMENTS	iv
TABLE OF CONTENTS	v
LIST OF FIGURES	ix
LIST OF TABLE	x

Chapter 1: Introduction	1
1.1 Introduction.....	2
1.2 What is Hospital Management System.....	2
1.3 Background of the Study.....	2
1.4 Objective of the Project.....	3
1.5 Scope of the Project.....	3
1.6 Overview of the Document.....	3
Chapter 2: Software Developing Life Cycle	5
2.1 Software Development Life Cycle.....	6
2.2 SDLC Model.....	6
2.3 Scrutinizing Our Project Model.....	7
2.3.1 Waterfall Model.....	7
2.3.2 Waterfall Model Design.....	7
2.3.3 Waterfall Model Phases.....	8
2.4 Advantages and Disadvantages of Waterfall Model.....	9
2.4.1 Advantages of Waterfall Model.....	9
2.4.2 Disadvantages of Waterfall Model.....	9

Chapter 3: Requirement Gathering /Analysis	10
3.1 Requirement Analysis.....	11
3.2 System Requirements.....	11
3.3 Software and Hardware Requirements.....	11
3.3.1 Software Requirements.....	11
3.3.2 Hardware Requirements.....	11
3.4 User Requirements.....	11
3.5 Functional Requirements.....	12
3.6 Nonfunctional Requirements.....	12
3.7 Business Requirements.....	13
3.8 Data and Category Requirements.....	13
Chapter 4: System Design (UML)	14
4.1 Use Case.....	15
4.1.1 Elements of Use Case Diagram.....	15
4.1.2 Actor Depiction.....	16
4.1.3 Use Cases of Hospital Management.....	16
4.2 Class Diagram of Hospital Management.....	18
4.3 Sequence Diagram.....	18
4.3.1 Sequence Diagram for Patient.....	19
4.3.2 Sequence Diagram for Doctor.....	19
4.3.3 Sequence Diagram for Report.....	20
4.3.4 Sequence Diagram of Hospital Management System.....	20
4.4 Entity-Relationship Model.....	20

4.4.1 Entity-Relationship Diagram.....	22
4.4.2 Relational Model for Hospital Management.....	22
4.4.3 E-R Diagram for Hospital Management System.....	23
Chapter 5: Data Definition and Form Design	24
5.1 Data Definition.....	25
5.1.1 Database hospital_management.....	25
5.1.2 Table Structure for Admin.....	25
5.1.3 Table Structure for Doctor.....	25
5.1.4 Table Structure for Pharmacist.....	26
5.1.5 Table Structure for Nurse.....	26
5.1.6 Table Structure for bed_allotment.....	26
5.1.7 Table Structure for medicine_catagory.....	26
5.1.8 Table Structure for accountant.....	27
5.1.9 Table Structure for Patient.....	27
5.1.10 Table Structure for Diagonosis_report.....	27
5.1.11 Table Structure for laboratorist.....	28
5.1.12 Table Structure for blood_bank.....	28
5.1.13 Table Structure for Payment.....	28
5.1.14 Table Structure for Prescription.....	29
5.2 Form Design.....	29
5.2.1 Login Page.....	29
5.2.2 Admin Page.....	30
5.2.3 Medicine_catagory Page.....	30
5.2.4 Payment Page.....	31

5.2.5 Diagonocis_report Page.....	32
5.2.6 Bed_allotment Page.....	32
5.2.7 Add Patient Page.....	32
5.2.8 Blood_donor Page.....	33
5.2.9 Blood_bank Page.....	33
5.2.10 View doctor Page.....	34
5.2.11 Pharmacist Page.....	34
5.2.12 Add Prescription Page.....	35
Chapter 6: Maintenance	36
6.1 Software Maintenance.....	37
6.2 Maintenance Activities.....	38
6.3 Diffculties of Maintenance.....	39
Chapter 7: Conclusion and Future Work	40
7.1 Conclusion.....	41
7.2 Limitations.....	41
7.3 Future Plans.....	41
References	42

LIST OF FIHURES

2.1 SDLC Phases.....	6
2.2 Waterfall Model.....	7
4.1 Use-Case.....	15
4.2 Actor.....	15
4.3 Association in Use-Case.....	15
4.4 Includes Relation in Use-Case.....	16
4.5 Use Cases Diagram for Hospital Management.....	17
4.6 Class Diagram for Hospital Management System.....	18
4.7 Sequence Diagram for Patient.....	19
4.8 Sequence Diagram for Doctor.....	19
4.9 Sequence Diagram for Report.....	20
4.10 Sequence Diagram of Hospital Management.....	21
4.11 E-R Diagram for Hospital Management System.....	23
5.1 Login Page.....	29
5.2 Admin Page.....	30
5.3 Medicine_catagory Page.....	30
5.4 Payment Page.....	31
5.5 Diagonocis_report Page.....	31
5.6 Bed_allotment Page.....	32
5.7 Add patient Page.....	32

5.8 Blood_donor Page.....	33
5.9 Blood_bank Page.....	33
5.10 Doctor Page.....	34
5.11 Pharmacist Page.....	34
5.12 Add Prescription Page.....	35
6.1 Maintenance Process Model.....	37
6.2 Maintenance Activities.....	38

LIST OF TABLES

5.1.2 Table structure for admin.....	25
5.1.3 Table structure for doctor.....	25
5.1.4 Table structure for pharmacist.....	26
5.1.5 Table structure for nurse.....	26
5.1.6 Table structure for bed_allotment.....	26
5.1.7 Table structure for medicine_catagory.....	26
